

Montgomery County Sheriff's Office Annual Racial Profiling Report (2013)

(I) Introduction

Opening Statement

March 1, 2014

Montgomery County Commissioners Court

501 North Thompson
Conroe, Texas 77301

Dear Distinguished Members of the Commissioners Court,

The Texas legislature, in an attempt to address the issue of racial profiling in policing, passed in 2001 the Texas Racial Profiling Law (S.B. 1074). Since becoming effective, the Montgomery County Sheriff's Office, in accordance with the law, has collected citation-based contact data for the purpose of identifying and addressing (if necessary) concerns regarding racial profiling practices by police officers.

In this particular report, you will find three sections that contain information on citation-based contact data along with documentation which aims at supporting the fact that the Montgomery County Sheriff's Office has complied with The Texas Racial Profiling Law. You will find, in section 1, the table of contents in addition to the Texas Law on Racial Profiling. Also, in this section, you will have the opportunity to become acquainted with the list of requirements relevant to the Racial Profiling Law as interpreted by TCOLE (Texas Commission on Law Enforcement).

In sections 2 and 3, you will have an opportunity to review documentation which demonstrates compliance of the Montgomery County Sheriff's Office with the Texas Racial Profiling Law. Specifically, documents relevant to the implementation of an institutional policy banning racial profiling, the implementation of a racial profiling complaint process (including the manner in which it has been disclosed to the public) and the training administered to all law enforcement personnel, are included.

This report also contains statistical data relevant to public contacts, made during the course of traffic stops, between 1/1/13 and 12/31/13. This information has been analyzed and compared to data derived from the U.S. Census Bureau in the form of the Fair Roads Standard, and to the citation-based contact data collected in 2010. The final analysis and recommendations are also included.

The data and supporting documentation presented in this report support the notion that the Montgomery County Sheriff's Office is committed to the identification and resolution (if necessary) of all issues relevant to racial profiling according to the state law.

Sincerely,

Tommy Gage, Sheriff

Texas Racial Profiling Law Requirements

Guidelines for Compiling and Reporting Data under Senate Bill 1074

Background

Senate Bill 1074 of the 77th Legislature established requirements in the Texas Code of Criminal Procedure (TCCP) for law enforcement agencies. The Commission developed this document to assist agencies in complying with the statutory requirements.

The guidelines are written in the form of standards using a style developed from accreditation organizations including the Commission on Accreditation for Law Enforcement Agencies (CALEA). The standards provide a description of *what* must be accomplished by an agency but allows wide latitude in determining *how* the agency will achieve compliance with each applicable standard.

Each standard is composed of two parts: the standard statement and the commentary. The *standard statement* is a declarative sentence that places a clear-cut requirement, or multiple requirements, on an agency. The commentary supports the standard statement but is not binding. The commentary can serve as a prompt, as guidance to clarify the intent of the standard, or as an example of one possible way to comply with the standard.

Standard 1

Each law enforcement agency has a detailed written directive that:

- clearly defines acts that constitute racial profiling;
- strictly prohibits peace officers employed by the agency from engaging in racial profiling;
- implements a process by which an individual may file a complaint with the agency if the individual believes a peace officer employed by the agency has engaged in racial profiling with respect to the individual filing the complaint;
- provides for public education relating to the complaint process;
- requires appropriate corrective action to be taken against a peace officer employed by the agency who, after investigation, is shown to have engaged in racial profiling in violation of the agency's written racial profiling policy; and
- requires the collection of certain types of data for subsequent reporting.

Commentary

Article 2.131 of the TCCP prohibits officers from engaging in racial profiling, and article 2.132 of the TCCP now requires a written policy that contains the elements listed in this standard. The article also specifically defines a law enforcement agency as it applies to this statute as an "agency of the state, or of a county, municipality, or other political subdivision of the state, that employs peace officers who make traffic stops in the routine performance of the officers' official duties."

The article further defines race or ethnicity as being of "a particular descent, including Caucasian, African, Hispanic, Asian, or Native American." The statute does not limit the required policies to just these ethnic groups.

This written policy is to be adopted and implemented no later than January 1, 2002.

Standard 2

Each peace officer who stops a motor vehicle for an alleged violation of a law or ordinance regulating traffic, or who stops a pedestrian for any suspected offense reports to the employing law enforcement agency information relating to the stop, to include:

- a physical description of each person detained, including gender and the person's race or ethnicity, as stated by the person, or, if the person does not state a race or ethnicity, as determined by the officer's best judgment;
- the traffic law or ordinance alleged to have been violated or the suspected offense;
- whether the officer conducted a search as a result of the stop and, if so, whether the person stopped consented to the search;
- whether any contraband was discovered in the course of the search, and the type of contraband discovered;
- whether probable cause to search existed, and the facts supporting the existence of that probable cause;
- whether the officer made an arrest as a result of the stop or the search, including a statement of the offense charged;
- the street address or approximate location of the stop; and
- whether the officer issued a warning or citation as a result of the stop, including a description of the warning or a statement of the violation charged.

Commentary

The information required by 2.133 TCCP is used to complete the agency reporting requirements found in Article 2.134. A peace officer and an agency may be exempted from this requirement under Article 2.135 TCCP Exemption for Agencies Using Video and Audio Equipment. An agency may be exempt from this reporting requirement by applying for the funds from the Department of Public Safety for video and audio equipment and the State does not supply those funds. Section 2.135 (a)(2) states, "the governing body of the county or municipality served by the law enforcement agency, in conjunction with the law enforcement agency, certifies to the Department of Public Safety, not later than the date specified by rule by the department, that the law enforcement agency needs funds or video and audio equipment for the purpose of installing video and audio equipment as described by Subsection (a) (1) (A) and the agency does not receive from the state funds for video and audio equipment sufficient, as determined by the department, for the agency to accomplish that purpose."

Standard 3

The agency compiles the information collected under 2.132 and 2.133 and analyzes the information identified in 2.133.

Commentary

Senate Bill 1074 from the 77th Session of the Texas Legislature created requirements for law enforcement agencies to gather specific information and to report it to each county or municipality served. New sections of law were added to the Code of Criminal Procedure regarding the reporting of traffic and pedestrian stops. Detained is defined as when a person stopped is not free to leave.

Article 2.134 TCCP requires the agency to compile and provide an analysis of the information collected by peace officer employed by the agency. The report is provided to the governing body of the municipality or county no later than March 1 of each year and covers the previous calendar year.

There is data collection and reporting required based on Article 2.132 CCP (tier one) and Article 2.133 CCP (tier two).

The minimum requirements for “tier one” data for traffic stops in which a citation results are:

- 1) the race or ethnicity of individual detained (race and ethnicity as defined by the bill means of “a particular descent, including Caucasian, African, Hispanic, Asian, or Native American”);
- 2) whether a search was conducted, and if there was a search, whether it was a consent search or a probable cause search; and
- 3) whether there was a custody arrest.

The minimum requirements for reporting on “tier two” reports include traffic and pedestrian stops. Tier two data include:

- 1) the detained person’s gender and race or ethnicity;
- 2) the type of law violation suspected, e.g., hazardous traffic, non-hazardous traffic, or other criminal investigation (the Texas Department of Public Safety publishes a categorization of traffic offenses into hazardous or non-hazardous);
- 3) whether a search was conducted, and if so whether it was based on consent or probable cause;
- 4) facts supporting probable cause;
- 5) the type, if any, of contraband that was collected;
- 6) disposition of the stop, e.g., arrest, ticket, warning, or release;
- 7) location of stop; and
- 8) statement of the charge, e.g., felony, misdemeanor, or traffic.

Tier one reports are made to the governing body of each county or municipality served by the agency an annual report of information if the agency is an agency of a county, municipality, or other political subdivision of the state. Tier one and two reports are reported to the county or municipality not later than March 1 for the previous calendar year beginning March 1, 2003. Tier two reports include a comparative analysis between the race and ethnicity of persons detained to see if a differential pattern of treatment can be discerned based on the disposition of stops including searches resulting from the stops. The reports also include information relating to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling. An agency may be exempt from the tier two reporting requirement by applying for the funds from the Department of Public Safety for video and audio equipment and the State does not supply those funds [See 2.135 (a)(2) TCCP].

Reports should include both raw numbers and percentages for each group. Caution should be exercised in interpreting the data involving percentages because of statistical distortions caused by very small numbers in any particular category, for example, if only one American Indian is stopped and searched, that stop would not provide an accurate comparison with 200 stops among Caucasians with 100 searches. In the first case, a 100% search rate would be skewed data when compared to a 50% rate for Caucasians.

Standard 4

If a law enforcement agency has video and audio capabilities in motor vehicles regularly used for traffic stops, or audio capabilities on motorcycles regularly used to make traffic stops, the agency:

- adopts standards for reviewing and retaining audio and video documentation; and
- promptly provides a copy of the recording to a peace officer who is the subject of a complaint on written request by the officer.

Commentary

The agency should have a specific review and retention policy. Article 2.132 TCCP specifically requires that the peace officer be promptly provided with a copy of the audio or video recordings if the officer is the subject of a complaint and the officer makes a written request.

Standard 5

Agencies that do not currently have video or audio equipment must examine the feasibility of installing such equipment.

Commentary

None

Standard 6

Agencies that have video and audio recording capabilities are exempt from the reporting requirements of Article 2.134 TCCP and officers are exempt from the reporting requirements of Article 2.133 TCCP provided that:

- the equipment was in place and used during the proceeding calendar year; and
- video and audio documentation is retained for at least 90 days.

Commentary

The audio and video equipment and policy must have been in place during the previous calendar year. Audio and video documentation must be kept for at least 90 days or longer if a complaint has been filed. The documentation must be retained until the complaint is resolved. Peace officers are not exempt from the requirements under Article 2.132 TCCP.

Standard 7

Agencies have citation forms or other electronic media that comply with Section 543.202 of the Transportation Code.

Commentary

Senate Bill 1074 changed Section 543.202 of the Transportation Code requiring citations to include:

- race or ethnicity, and
- whether a search of the vehicle was conducted and whether consent for the search was obtained.

The Texas Law on Racial Profiling

AN ACT

relating to the prevention of racial profiling by certain peace officers.

BE IT ENACTED BY THE LEGISLATURE OF THE
STATE OF TEXAS:

SECTION 1. Chapter 2, Code of Criminal Procedure, is amended by adding Articles 2.131 through 2.138 to read as follows:

(d) On adoption of a policy under Subsection (b), a law enforcement agency shall examine the feasibility of installing video camera and transmitter-activated equipment in each agency law enforcement motor vehicle regularly used to make traffic stops and transmitter-activated equipment in each agency law enforcement motorcycle regularly used to make traffic stops. If a law enforcement agency installs video or audio equipment as provided by this subsection, the policy

adopted by the agency under Subsection (b) must include standards for reviewing video and audio documentation.

(b) Except as otherwise provided by this subsection, a law enforcement agency that is exempt from the requirements under Article 2.134 shall retain the video and audio or audio documentation of each traffic and pedestrian stop for at least 90 days after the date of the stop. If a complaint is filed with the law enforcement agency alleging that a peace officer employed by the agency has engaged in racial profiling with respect to a traffic or pedestrian stop, the agency shall retain the video and audio or audio record of the stop until final disposition of the complaint.

(c) This article does not affect the collection or reporting requirements under Article 2.132.

(1) law enforcement agencies that employ peace officers whose primary duty is traffic enforcement;

(2) smaller jurisdictions; and

(3) municipal and county law enforcement agencies.

The collaboration may include the use of a survey to assist in developing criteria to prioritize funding or equipment provided to law enforcement agencies.

(c) To receive funds or video and audio equipment from the state for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A), the governing body of a county or municipality, in conjunction with the law enforcement agency serving the county or municipality, shall certify to the

Institutional Policy on Racial Profiling

Montgomery County Sheriff's Office
Patrol Division
Division Order

Number: 1.38 Issue Date: 01/01/02 Revision Date: 01/01/04

Subject: Profiling

- Purpose:** To provide the definition, complaint process, correction process, and reporting requirements for racial profiling. This policy includes the procedures for proper reporting of racial profiling information and the use of video/audio equipment (video camera) in addition to procedures for review and storage of tapes.
- Reference:** Code of Criminal Procedure, Articles 2.131-2.138
- Definition:** "Racial Profiling" means a law enforcement initiated action based on an individual's race, ethnicity, or national origin rather than on the individual's behavior or on information identifying the individual as having engaged in criminal activity.
Policy Statement: The Montgomery County Sheriff's Department does not engage in, nor do we condone, the stopping of persons or pedestrians based on factors other than probable cause. These factors do not include race, ethnicity, gender, or other factors. Legally detaining a person must be based on probable cause of criminal activity. This policy is in compliance with SB 1074.
- Complaint Process:** A person who wishes to file a complaint against a deputy who he/she believes has engaged in racial profiling activities may do so by contacting any on duty departmental supervisor or the Departmental Integrity Unit. This information will be provided to anyone who makes such an inquiry.
- Corrective Action:** Corrective action for any deputy employed by MCSO who, after an investigation, is shown to have engaged in racial profiling in violation of this policy shall be disciplined in accordance with the policy as outlined in the General Manual of Operations.

TASKS

When a traffic stop or pedestrian interview is performed, the following procedures will be utilized:

- I. The contact or stop will be performed based on probable cause of criminal activity.

II. All MCSO vehicles that are routinely used for traffic or pedestrian stops are equipped with video and audio recording equipment. When a traffic or pedestrian stop is performed, the camera will be turned on utilizing both audio and video and will remain active until the stop is concluded without any interruption of the tape.

III. Traffic stops will be made following existing policies found in all other sections of this manual. In addition to these existing policies, the following information will be collected.

A. All stops in which a citation was issued or an arrest was effected as the result of a traffic stop will contain the following information on the citation:

1. Race / Ethnicity of the individual stopped. This is defined as follows:

- a. Caucasian
- b. African
- c. Hispanic
- d. Asian
- e. Native American
- f. Not determined

2. Was a search conducted? (Yes or No)

3. Was search consensual? (Yes or No)

B. Citations will be submitted at completion of the duty shift. The district secretary will then enter the racial profiling data into a data base for storage and later retrieval. If an arrest is made as the result of a traffic stop for an offense that doesn't require a citation, the information will be documented on a "Field Interview Card" and submitted as described above to the district secretary.

IV. Video tapes will be stored for a minimum period of 90 days. At the conclusion of the 90 day waiting period and if no complaint of racial profiling is received, the tape will be reconditioned, relabeled, and reissued to a patrol deputy.

Complaint Process: Informing the Public and Addressing Allegations of Racial Profiling Practices

Informing the Public on the Process of Filing a Racial Profiling Complaint with the Montgomery County Sheriff's Office

Since January 1, 2002, the Montgomery County Sheriff's Office, in accordance to The Texas Racial Profiling law, launched an educational campaign aimed at informing the public on issues relevant to the complaint process. The Sheriff's Office made available, in 2002, information relevant to filing a complaint on a racial profiling violation by a Montgomery County Sheriff's Office Deputy.

The Montgomery County Sheriff's Office included language, in its current complaint process, pertaining to the manner in which citizens can file a complaint as a consequence of a racial profiling incident. It is believed that through these efforts, the community has been properly informed of the new policies and the complaint processes relevant to racial profiling.

Racial Profiling Training

Racial Profiling Training

Since 2002, all Montgomery County Sheriff's Office Deputies were instructed, as specified in S.B. 1074, to adhere to all Texas Commission on Law Enforcement (TCOLE) training and the Law Enforcement Management Institute of Texas (LEMIT) requirements. To date, all sworn officers of the Montgomery County Sheriff's Office have completed the TCOLE basic training. The main outline used to train the Deputies of the Montgomery County Sheriff's Office has been included in this report.

It is important to recognize that the Sheriff of the Montgomery County Sheriff's Office has also met the training requirements, as specified by the Texas Racial Profiling Law, in the completion of the LEMIT program on racial profiling. The satisfactory completion of the racial profiling training by the sworn personnel of the Montgomery County Sheriff's Office fulfills the training requirement as specified in the Education Code (96.641) of the Texas Racial Profiling Law.

2.0 RACIAL PROFILING AND THE COMMUNITY

2.1 UNIT GOAL: The student will be able to identify logical and social arguments against racial profiling.

2.1.1 LEARNING OBJECTIVE: The student will be able to identify logical and social arguments against racial profiling.

A. There are appropriate reasons for unusual traffic stops (suspicious behavior, the officer's intuition, MOs, etc.), but police work must stop short of cultural stereotyping and racism

B. Racial profiling would result in criminal arrests, but only because it would target all members of a race randomly – the minor benefits would be far outweighed by the distrust and anger towards law enforcement by minorities and the public as a whole

C. Racial profiling is self-fulfilling bad logic: if you believed that minorities committed more crimes, then you might look for more minority criminals, and find them in disproportionate numbers

D. Inappropriate traffic stops generate suspicion and antagonism towards officers and make future stops more volatile – a racially-based stop today can throw suspicion on tomorrow's legitimate stop

E. By focusing on race, you would not only be harassing innocent citizens, but overlooking criminals of all races and backgrounds – it is a waste of law enforcement resources

3.0 RACIAL PROFILING VERSUS REASONABLE SUSPICION

3.1 UNIT GOAL: The student will be able to identify the elements of both inappropriate and appropriate traffic stops.

3.1.1 LEARNING OBJECTIVE: The student will be able to identify elements of a racially motivated traffic stop.

A. Most race-based complaints come from vehicle stops, often since race is used as an inappropriate substitute for drug courier profile elements

B. "DWB" – "Driving While Black" – a nickname for the public perception that a Black person may be stopped solely because of their race (especially with the suspicion that they are a drug courier), often extended to other minority groups or activities as well ("Driving While Brown," "Flying While Black," etc.)

C. A typical traffic stop resulting from racial profiling

1. The vehicle is stopped on the basis of a minor or contrived traffic violation which is used as a pretext for closer inspection of the vehicle, driver, and passengers

2. The driver and passengers are questioned about things that do not relate to the traffic violation

3. The driver and passengers are ordered out of the vehicle
4. The officers visually check all observable parts of the vehicle
5. The officers proceed on the assumption that drug courier work is involved by detaining the driver and passengers by the roadside
6. The driver is asked to consent to a vehicle search – if the driver refuses, the officers use other procedures (waiting on a canine unit, criminal record checks, license-plate checks, etc.), and intimidate the driver (with the threat of detaining him/her, obtaining a warrant, etc.)

3.1.2 LEARNING OBJECTIVE: The student will be able to identify elements of a traffic stop which would constitute reasonable suspicion of drug courier activity.

- A. Drug courier profile (adapted from a profile developed by the DEA)
1. Driver is nervous or anxious beyond the ordinary anxiety and cultural communication styles
 2. Signs of long-term driving (driver is unshaven, has empty food containers, etc.)
 3. Vehicle is rented
 4. Driver is a young male, 20-35
 5. No visible luggage, even though driver is traveling
 6. Driver was over-reckless or over-cautious in driving and responding to signals
 7. Use of air fresheners
- B. Drug courier activity indicators by themselves are usually not sufficient to justify a stop

3.1.3 LEARNING OBJECTIVE: The student will be able to identify elements of a traffic stop which could constitute reasonable suspicion of criminal activity.

- A. Thinking about the totality of circumstances in a vehicle stop
- B. Vehicle exterior
1. Non-standard repainting (esp. on a new vehicle)
 2. Signs of hidden cargo (heavy weight in trunk, windows do not roll down, etc.)
 3. Unusual license plate suggesting a switch (dirty plate, bugs on back plate, etc.)
 4. Unusual circumstances (pulling a camper at night, kids' bikes with no kids, etc.)
- C. Pre-stop indicators
1. Not consistent with traffic flow
 2. Driver is overly cautious, or driver/passengers repeatedly look at police car
 3. Driver begins using a car- or cell-phone when signaled to stop
 4. Unusual pull-over behavior (ignores signals, hesitates, pulls onto new street, moves objects in car, etc.)

D. Vehicle interior

1. Rear seat or interior panels have been opened, there are tools or spare tire, etc.
2. Inconsistent items (anti-theft club with a rental, unexpected luggage, etc.)

Analysis and Interpretation of Data

Analysis

According to the Texas Racial Profiling Law all police departments in the state are required to collect data when a traffic-related citation is issued or an arrest is made. In addition, the law requires that agencies report this information to their local governing authority once a year by March 1. The purpose in collecting and presenting this information is to determine if a particular police officer is engaging in the practice of profiling minority motorists. Despite the fact most agree that it is good practice for police departments to be accountable to their community, it is very difficult to determine, from the review of aggregate data, if police departments are engaging in racial profiling. That is, it is challenging to detect specific “individual” racist behavior from the study and analysis of aggregate-level “institutional” data on traffic-related contacts.

It should be noted that the Montgomery County Sheriff’s Office, in response to the requirements of The Texas Racial Profiling Law (S.B. 1074), reported and analyzed its 2012 traffic contact data. Thus, two different types of analyses were conducted. The first of these involved a careful evaluation of the 2013 traffic-stop data. This particular analysis measured, as required by the Texas Racial Profiling Law, the number and percentage of Caucasians, African Americans, Hispanics, Asians, Native Americans, and individuals belonging to the “other” category, that came in contact with the police and were issued a traffic-related citation or arrested in 2013. In addition, the analysis included information relevant to the number and percentage of searches (table 1) while indicating the type of search (i.e., consensual or probable cause) conducted. Finally, the data analysis highlighted the number and percentage of individuals who, after they were issued a citation, were subsequently arrested.

The second type of analysis included in this report, related to the comparison of the 2013 traffic contact data with an appropriate baseline. It should be noted that there is also a great deal of disagreement, in the academic literature, over the type/form of baseline to be used when analyzing traffic-related contact information. Of all the baseline measures available, the Montgomery County Sheriff’s Office decided to adopt, as a baseline measure, the Fair Roads Standard. This particular baseline is based on data obtained through the U.S. Census Bureau (2011) relevant to the number of households in a particular jurisdiction that have access to vehicles while controlling for race and ethnicity. It should be noted that census data presents challenges to any effort made at establishing a fair and accurate racial profiling analysis. In other words, census data contains information on all residents of a particular community, regardless of the fact they may or may not be among the driving population.

The Montgomery County Sheriff’s Office opted to use this form of comparison (i.e., census data relevant to households with vehicles) in an attempt to demonstrate its “transparency” before the community. The Fair Roads Standard data obtained is relevant to the County of Montgomery.

III) Summary

Summary Statement

The findings suggest that the Montgomery County Sheriff's Office does not currently experience a problem regarding racial profiling practices. This is supported by the fact that it has not received any complaints in year 2013 regarding racial profiling practices. Additionally, since implementing our racial profiling policy, there have been no sustained complaints from community members regarding deputy misconduct associated with racial profiling practices.

The continuing effort to collect law enforcement contact data will assure an on-going evaluation of the Montgomery County Sheriff's Office practices. Thus, allowing for the citizens of Montgomery County to benefit from professional and courteous service from their Sheriff's Office.
